

Remote jamming at new mall

Photo: Communications Officer at the Verulam SAPS, Captain Henry Kisten.

The Verulam SAPS has issued a warning to the public to be aware of vehicle remote jamming.

Communications Officer at the Verulam SAPS, Captain Henry Kisten told **The Rising Sun**, "The public needs to be vigilant when locking their vehicles with their remote devices, especially at shopping malls and centres".

"This comes especially after a case was reported on 28 September 2017

at the opening of the new Cornubia Shopping Mall. The complainant alleges that he had locked his vehicle with his remote and proceeded into the shopping mall", Captain Kisten said.

He alleges that eighteen minutes later when he returned to his vehicle he noticed the driver's side door and boot was opened and his laptop computer was taken.

"Numerous cases have been report-

ed where victims think that their car is locked but actually criminals have remote-jammed the vehicles. The community needs to be aware of this

and make sure that their vehicles are properly locked before leaving it", he advised.

Police looking for witnesses

The Phoenix SAPS are urgently looking for witnesses to an accident that happened on Saturday, 23 September 2017 (**The Rising Sun** P.4 No.38). The accident happened at approximately 20H48 on the Phoenix Highway in the vicinity of Trade Centre.

Four young men died in the accident. Two brothers and two friends aged between seventeen and twenty three years old were killed. Anyone with information is urged to contact Warrant Officer Dean Rajcoomar on (031) 5082315 or 0712532427.

Feud and arrest over tablet

Battle lines have been drawn between two neighbours after one accused the other of stealing her electronic gadget.

The complainant alleges that she was seating at her home with Samkelisiwe Mdletshe when she went to the kitchen to get something to drink. When she came back, she noticed that her Huawei Tablet was not on top of the coffee table, where she had left it. She enquired about it from the visitor but she (Mdletshe) denied ever seeing the device, which led her to call the police and hence Mdletshe's arrest.

In a bid to get bail, the 23-year-old, submitted a sworn statement, which was read by her defense lawyer, Mr Chetty from Legal Aid South Africa. Chetty submitted that his client was unemployed and resided in Inanda, which is under the court's jurisdiction. According to Chetty, the bail applicant had no previous convictions or any pending cases, which meant she

was a first-time offender. The public defender explained that Mdletshe intended to plead not guilty to the crime but did not divulge the basis of her intended plea.

Chetty made it known that his client had no intentions of interfering with the police investigations. She was also willing to abide by any bail conditions set by the court. Chetty suggested that Mdletshe be released on warning as she had no money for bail since she was not employed. The state prosecutor, Mr Govender, did not oppose bail but suggested that R2 000 was a suitable amount for the suspected thief's bail. In ruling, Magistrate Parshotam considered the applicant's personal circumstances and found that it was in the interest of justice to release her on R1 200 bail.

Parshotam adjourned the matter to 26 October 2017 for further investigations or for a possible plea.

PRESENT ADVERT FOR OCTOBER FEST

6 OCT - 4 NOV DAMODARA MONTH

Damodara or Kartika Month

The Padma Purana describes the month of Kartika as Krishna's favourite month. Devotional activities performed during this holy month are rewarded with greater spiritual results than usual; so devotees often take vows to increase their spiritual practices or to simplify their material needs for the entire month. It is a way that devotees can remember Krishna more and increase their service to Him.
