There was excitement in the air as the new Cornubia Shopping Mall, just outside Phoenix, was officially opened last Thursday.

Present at the official launch was MEC for Human Settlements and Public Works in KZN, Ravi Pillay, together with Darryl Mayers, Head of Investec Property South Africa and representatives from eThekweni Municipality and other distinguished guests.

The Mall, set within the Cornubia Residential Project, acts as a link between a number of communities from varied economic backgrounds and heralds opportunities for employment, skills transfers,

economic growth and development. The role of this mall, together with other developments in the near future, must continue to carve out new ways of addressing the economic disparity that is still widespread across our city. We are happy as eThekweni Municipality to see that the Mall has taken up the charge and continues to work with its local communities in creating a sustainable Cornubia community,

said Councillor Siphon Kaunda, Chairperson of the City Economic Development and Planning Committee, in his address at the launch event.

Now home to over 110 retailers, we are thrilled to see the mall completed after 8 years in the making from acquiring the land until the doors were opened today. This has been an immense project. This indoor/outdoor mall was designed with activities and experiences for the whole family in mind and offers world-class shopping, entertainment and an

outdoor lifestyle for an active community. We are thrilled to have been able to save a 112-year-old historic Natal Fig tree and incorporated this into the mall to offer a great viewpoint of the entire centre, said Mayers. There is room for further growth of the mall and there is already a plan underway for a 20 000m<sup>2</sup> expansion in the future. The second phase will include a further 70 stores that would be added. The mall has brought infrastructure, jobs and skills transfer and improved transport

to residents within the Cornubia development and surrounding communities.

Cornubia is a joint venture between the National Department of Human Settlements, the KwaZulu-Natal Department of Human Settlements, eThekweni Municipality and Tongaat Hulett Development. When complete, the establishment will boast 28 000 mixed income housing units, light industrial factories, retail parks, schools and various businesses.
